# Hello.

---

Thank you for taking the time to review our Cambridge home design series.

Each of these homes have been designed by our own in-house drafting team.

Our home designs offer a balance between aesthetic flair and functionality whilst still keeping budget front of mind.

Our Cambridge 24 has been recognised by HIA as a top display home in NSW for its design.

The Cambridge 24 MK3 is also conveniently on display at HomeWorld Leppington and can be modified to suit your lifestyle.

We'd love to discuss your build ideas, so please chat to our friendly team.

# Experience the King Homes *difference*

---

At King Homes NSW, we believe in using only the best building materials and products available in the market. We work with reputable suppliers and brands to ensure that your home is of a superior quality.

For example, we only use quality bricks from both PGH and Austral which are known for their durability and strength, and Talostone benchtops which are a popular choice for durability.

We also take great care in the construction process, regularly communicating with you to ensure you are informed and feel confident throughout the build.

Our team of experienced professionals and tradespeople are dedicated to delivering your dream home to your satisfaction.

You can choose one of our standard floorplans crafted by our experienced Drafting team. Or we can work together to design a completely one-of-a-kind custom home.

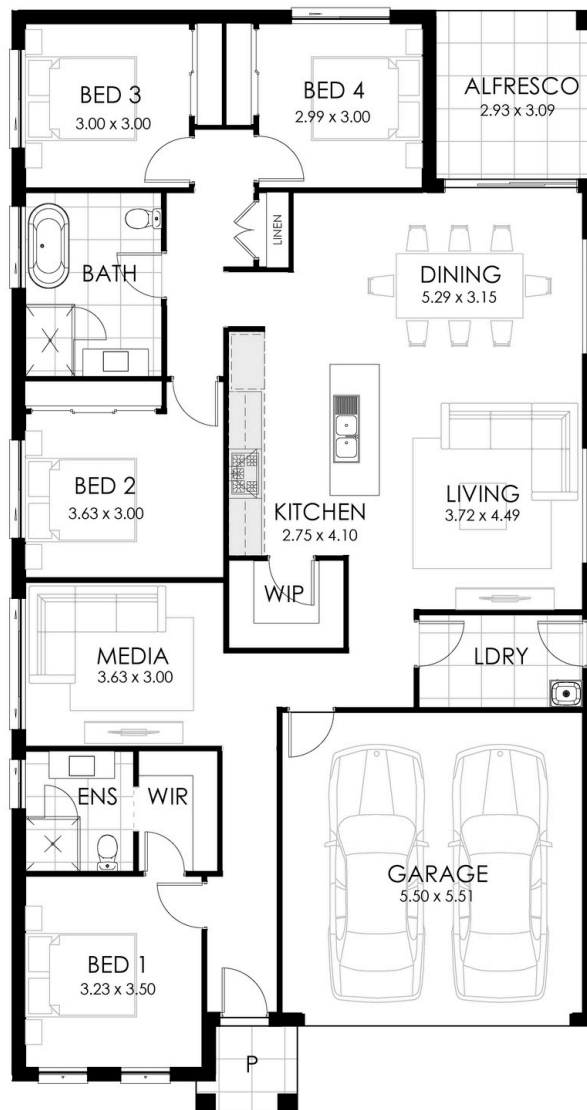

We provide a 25-year structural guarantee for your peace of mind. This guarantee assures you that your home is built to last and withstand the test of time.
