# Experience the King Homes *difference*

At King Homes NSW, we understand that embarking on the journey of building a new home can feel complicated. However, we are here to bring your new home to life and guide you every step of the way.

Building a new home involves a multitude of moving parts, each requiring careful consideration and coordination. Rest assured, our dedicated and experienced teams are here to provide unwavering support, ensuring that your vision comes to life with ease and precision. We pride ourselves on the difference we offer to our clients; competitive standard inclusions, fixed priced contracts, dedicated interior designers, a skilled construction team and our own after-handover maintenance team. We also build concrete pools which are designed to suit your block of land.

We invite you to visit one of our display homes for inspiration and have a chat to our experts about your new home build ideas.

#### BYO home plans or let's design a brand new custom home together.

Anyone can simply build a house, however it takes a special combination to build a home. As you will find, we offer a great range of home designs which can be customised to suit your lifestyle, site and budget.

As a medium sized home builder, we already have efficient processes in place to enable us to build a volume of quality homes for our clients each year across three categories. Pre-Designed plans, Custom Designed plans or BYO Client supplied plans.

Leveraging our experience, our large network of skilled trades and suppliers to ensure your home is built to a quality standard.

If you already have plans from a Drafter or Architect, we can also use those plans to build your new home.

#### The Vella Family's New Custom Home and Pool

The Vella family set out to create a custom home tailored to their lifestyle on a newly purchased block of land in a quiet, family-friendly street.

After securing the site, they partnered with King Homes NSW to design a residence that combines contemporary style with practical family living. Designed and built entirely in-house, the home features expansive open-plan living areas, a resort-style concrete pool, and clever design details that maximise both space and natural light.

Navigating strict developer guidelines, the King Homes team also used structural steel to achieve a striking corner window with no front post and incorporated a soaring 5.8m-high alfresco ceiling supported by portal frame construction—creating a light-filled and seamless connection to the outdoors.

Today, the Vella family enjoys a sophisticated, custom-built home that delivers on every front—design, function, and quality without compromise. "A 3-car garage wasn't part of the developer's design guidelines, but a priority on our client's wish list. Through our considered facade design and managing the approvals process, we were happy to be able to make it happen."

— Mark King Director King Homes NSW

#### Big Impact on a Narrow Block

This knockdown rebuild was designed for the Lum family on a 12m-wide block with a tight 9m build envelope—bringing our popular Soho home design to life in a way that felt completely custom. With strict council requirements and a sewer encasement restriction, our team engineered a solution early in planning—reclaiming 5 metres of crucial buildable area. A reconfigured façade, passive solar design, and pool integration completed the home's tailored layout.

"Other builders told us our narrow block was too difficult. King Homes listened, found solutions, and made it work." - Lum family

Despite the challenges of building in an established suburb, we managed demolition, access, and construction with minimal disruption—thanks to detailed planning and on-site coordination.

"From the very first meeting, King Homes made us feel like we were creating something truly custom. We had a vision—King refined it into a home that works perfectly for our family."

"Aaron, our supervisor, was incredibly meticulous. Jenna in posthandover was amazing. And the best part? We stayed within budget—something that's rare these days."

This home was delivered on time, on budget, and finished to the highest standard—proving that with the right team, a narrow block can still mean big possibilities.

"Our experienced team delivered a beautiful home. It was a pleasure working with our clients to customise one of our own designs into something that truly reflected their needs"

— **Mark King** Director King Homes NSW
